

Create your own... Reindeer Gift

You will need:

- Ice-lolly sticks
- Acrylic paint
- Brown card
- Sharpies
- Pritt stick
- Ribbon
- Coloured Card
- Glitter or snowflakes

How to make:

1 Firstly, paint some ice-lolly sticks using red and green colours. Wait to dry then stick them together by attaching a piece of card at the back with some glue so it holds together.

2 Whilst your sticks are drying, carefully cut out the reindeer shapes on brown card with some scissors. Use the template if you need help drawing out the shapes of your reindeer!

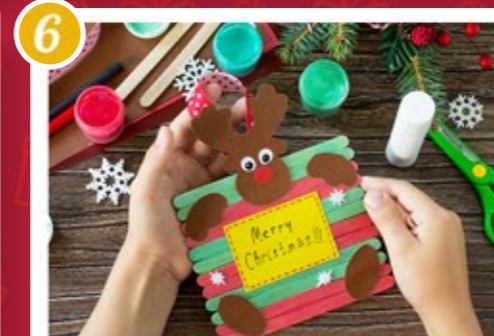

3 Next, draw out the features on your reindeer - either using a sharpie or paint. If you have any googly-eyes, use these instead to have a more realistic look!

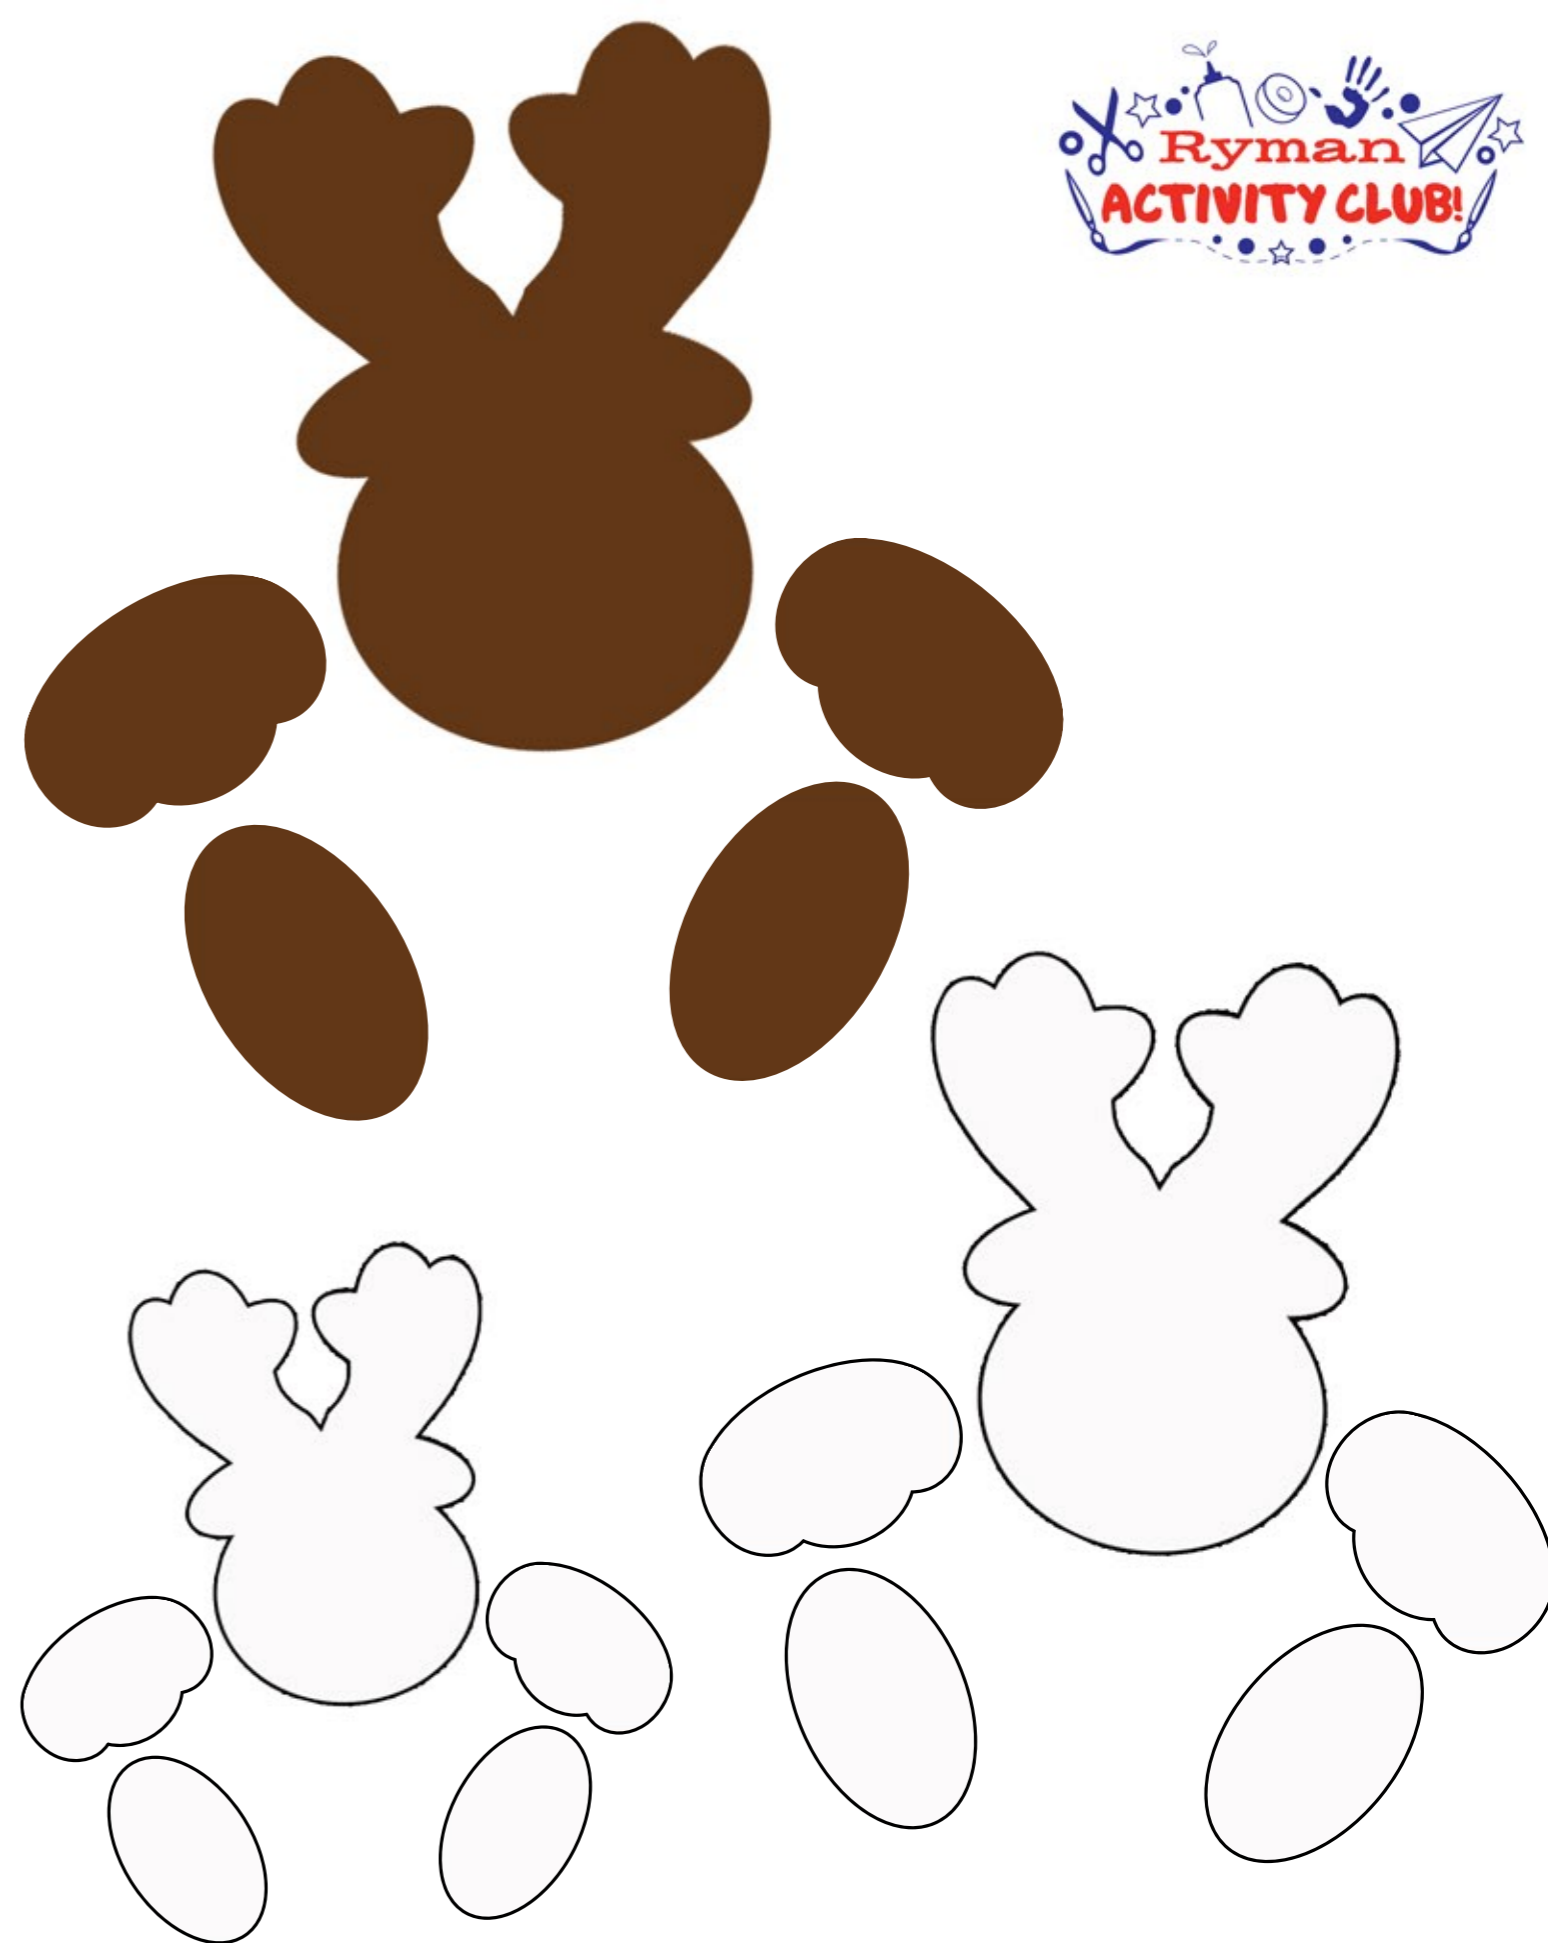

4 Gently start sticking on your reindeer features onto the sticks - making full use of the corners and leaving space in the middle for your message.

5 Flip your gift over and stick a piece of ribbon at the back using some glue. Make sure the ribbon is folded so it has a loop to hang your gift. Leave to dry thoroughly.

6 Finally, stick some card at the front of your gift and write your message. Don't forget the final touches i.e. snowflakes or glitter to make it that extra bit special!

Print out this template on card and carefully cut out the shapes from this template for your reindeer features! You can also colour in the shapes yourself for a more personal look.
