

# Create your own... Toy Mouse Bauble

## You will need:

- Ice-lolly sticks
- Acrylic paint
- Brown card
- Sharpies
- Pritt stick
- Ribbon
- Coloured Card
- Glitter or snowflakes

## How to make:

1 Firstly, use a ruler and pencil to draw out some lines at the back of some black card.

2 Use scissors to carefully cut out the lines. You will need at least six pieces of cut-outs!

3 Next, place the six pieces on top of each other in a circular motion. Use the image as reference. You will need to glue down each pieces with a Pritt stick in the middle, then leave to dry.

4 Start gathering each piece together - collecting the ends together in the middle. This should form a round head shape as the image above. Glue each pieces together as you go along.

5 Create the features of your mouse by drawing some eyes on a white piece of paper. Use some pink and black card to also create the ears - all you need is two pair of circles each!

6 Finally, stick the features of your mouse onto the circular head - don't forget the whiskers too! You can also attach some string to the top if you want to use it as a bauble.
