

# Create your own... Potato Prints

## You will need:

- Potato (any baking potatoes will work)
- Sharp knife (for careful adult use only)
- Kitchen towel
- Paint
- Paper or card

## How to make:

- 1 Carefully cut your potatoes in half (adults only)
- 2 Score an outline of your chosen print shape onto the flat side of the potato
- 3 Cut out around your shape so you have a potato stamp a few mm thick
- 4 Blot the potato stamp with some kitchen towel to remove excess moisture
- 5 Dip the potato stamp in a thin layer of paint, making sure it's even and removing any excess before pressing onto your chosen paper or card
- 6 Why not make lots of different stamps to create your very own masterpiece!

We'd love to see your creations! Tag us on Instagram @ryman and #ShowUsHowYouMakeIt
