

How to make

Ribbon Wands

STEP BY STEP:

- 1 Glue around the top of your twig. Stick the ribbons to the top of the twig, add more glue over the top of the ribbons each time you add a new ribbon.
- 2 Add a strip of glue along the length of the twig.
- 3 Start at the top with satin ribbon (the length will depend on the length of your twig). Wrap the ribbon all the way round the top to cover the glue.
- 4 Continue wrapping the ribbon around the twig so that it slightly overlaps.
- 5 When you get to the bottom, glue the ribbon down. Finish the wrapping of ribbon and squish the excess ribbon in place, form a neat end by adding the bead.
- 6 Fold the wrapping ribbon in half to find the centre and tie onto the bottom of the wand. Place a knot on top to secure.

YOU WILL NEED:

Glue
Scissors
A Twig
Selection of ribbon cut to 40cm long (approx. 6)
2x Beads

7

Take both ribbons to the back of the wand and cross over and then bring them to the front of the wand and cross over. Keep wrapping the ribbons around the wand.

8

When you get to the top of the wand, knot the ribbon making sure it's tight. leave two long ends that will make two extra streamers. seal the ribbon using
