

How to create and play...

Hopscotch

You will need:

- A flat ground
- Coloured chalk
- A pebble or stone
- An adult to help

How to play:

- 1 Firstly, using a chalk, draw a hopscotch design on the ground in squares and number them 1-10. Use different colours to make it more exciting.
- 2 Throw a pebble or stone to land on a square and hop all the way to the top, skipping the one you have your pebble on.
- 3 Turn around and hop back, using both feet where there are two squares. Don't forget to pick your pebble up on the way back!
